OUR GREEN, SUSTAINABLE & WELLNESS FEATURES :

1. Good Natural Ventilation with 2 or 3 windows in each room : avoid stagnant air & improve Air quality.
2. Thermal Insulation achieved by Hollow clay block exterior walls : keep the heat out.
3. Energy efficient uPVC windows : prevent Air conditioning losses and dust.
4. Recycling of Sullage water : why waste new water for flushing and gardening?
5. Elevated farming plot in terrace for each apartment : grow your own vegetables while insulating the roof.
6. Energy efficient Common Building lighting.
7. Common Solar Water Heater : Save heating power costs, have guilt free water 24/7.
8. Low flow water fixtures : to avoid water wastage.
9. Drought resistant landscaping in Ground floor : because every drop counts while green plants cool the eye.
10. Nontoxic finishes and materials : for your wellness.
11. Ergonomic architectural design that's also Vaasthu compliant : to achieve full functionality of space and peace of mind for the vaasthu - inclined.
12. Human connection and interaction : Facilitating meet and greet zones in the Ground floor and Terrace floor.
13. Personal Fitness and community well being: Gym and community hall in terrace
14. Social events : Gathering space in the terrace for social events.
15. Walkable and bike friendly : For Wellness in your home environs.
16. Universal Access: Friendly for elderly & differently abled with lift access to terrace.
17. Waste collection : Responsible Organic & Dry waste collection points within the site.
18. Power backup - Standby generator for Lift and common area
19. Security- CCtv in common Area
20. Fire Safety - Fire Fighting Equipment in lobby

Let's work together for greener & more sustainable homes!
